

Financial incentives for schools

Teacher Subject Specialism Training (TSST) in

Mathematics, Physics and MFL – French and Spanish

Free training based at The Compton School during the 2018-19 academic year

The Compton Teaching School Alliance is keen to involve schools in the TSST programme and work collectively to enhance the subject knowledge of teachers. Therefore has designed a package to pay schools to support the subject knowledge development of their staff.

The core training will involve six, half day sessions. To encourage schools to take part in the programme and support the potential cost of covering lessons, the following package has been created.

Incentive	Frequency	Total
In school observation to support subject knowledge for teaching	1 per term at £100 per observation	£300
In school coaching to support planning of lessons and delivery of enhanced subject knowledge	2 per half term at £60 per session (2 x 4 half terms)	£480
	Total	£780

If you would like more information or register an interest for this programme please contact Stuart Merritt, stuart.merritt@thecompton.org.uk (Maths and Physics) and Emma Hazlegreaves, emma.hazlegreaves@thecompton.org.uk (MFL – French and Spanish).
