

## Interim Reports

### Years 8 and 9

## Making sense of your child's progress and achievements

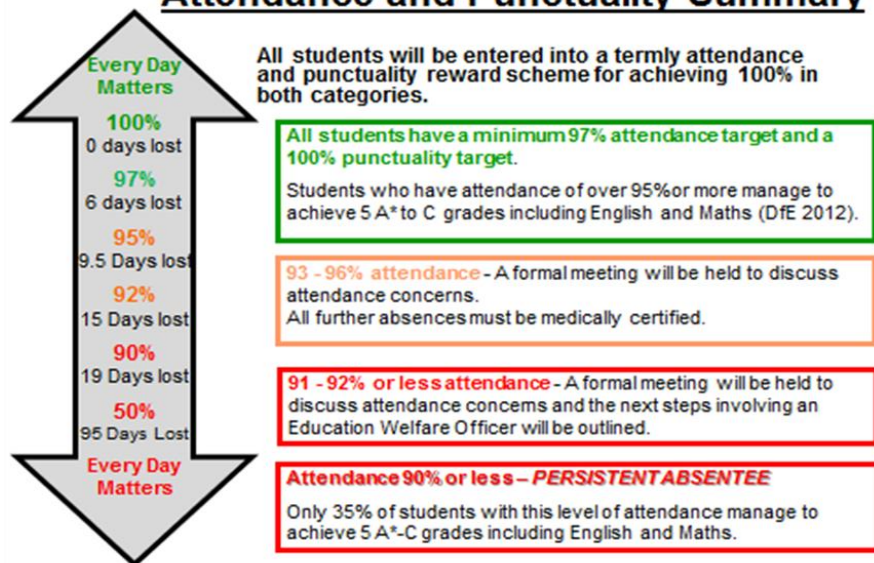

During each academic year you will receive a number of Interim Reports, which show the current levels that your child is working at for each subject, along with the targets they are working towards by the end of Year 9.

Compton School Levels go from 1 to 7 and are further sub-divided into a, b and c; with "a" representing a higher level of achievement than a "c". For example a level 5a is higher than 5c.

Interim Reports are posted home and displayed on e-portal. This will enable you, and your child, to track their progress for each subject. (If you wish to receive a paper copy of all reports please email/write to Kay Comer, [kay.comer@thecompton.org.uk](mailto:kay.comer@thecompton.org.uk))

If you have a concern or a question about a particular subject on your child's report you should contact the teacher directly. However, if your concern is more general you should contact the Key Stage Leader, Ms Chapple
